New Project

Register or Login

- If you already have a BYB login from our previous system, click Login from top right and enter your email address. You'll be emailed a link to generate a new password for our new system.
- In the future, you can also click "Use password free option", which will email you a link to login.
- If you don't have an account or your existing login doesn't work, click Register or Create an Account to set up a new account. You'll receive an email with confirmation of your account set up.

The image shows two screenshots of the Bullard user interface. The top screenshot is a login page titled "Sign in to continue to Build Your Bullard". It features a text input field for "Username or Email" with the placeholder text "Username". Below the field is a green button labeled "Next" with a right-pointing arrow. At the bottom of the form, there is a link that says "Don't have an account? [Create an Account!](#)".

The bottom screenshot is a registration page titled "Welcome" with the email address "matt_king@bullard.com" displayed. It has a text input field for "Password" with the placeholder text "Password". Below the field is a link for "Forgot Password?". A green button labeled "Sign In" with a right-pointing arrow is positioned below the password field. Below this button is a horizontal line with the word "OR" centered. Underneath, there is a text line: "We'll email you a magic link for a password-free sign in." At the bottom of the form is a green button labeled "Use password free option".

To Start

Configure & Customize

Better health and safety products.

With online proofing, easy re-ordering, and realtime virtual previews - ordering a Bullard product reflects the superior experience you will have owning one.

Head Protection will be our example, but the process to configure a product is similar in Fire & Rescue as well.

Selecting a Hat

[← CHANGE CATEGORY](#)

Cap Style

Bullard cap style hard hats offer top impact and electrical protection in a low-profile, balanced fit. Be confident the hat will stay on with the Bullard ratchet suspension and choose the most comfortable model to fit, with options of a four point or six point suspension. Cap style models include accessory slots to ensure the hat can include the items needed for additional protection. All Bullard cap style helmets meet ANSI Z89.1 Type I requirements. All non-vented models meet ANSI/ISEA Z89.1 Class E & G electrical requirements. Vented models meet ANSI/ISEA Z89.1 Class C electrical requirements.

* Phone 1 Phone 2

Submit To Bullard

If End User: Clicking submit will ask you to send the project to your distributor's email. If you don't have a distributor, leave this blank a Bullard sales team member will contact you.

If Distributor: Clicking submit will lock the project and submit to Bullard. For most fire helmet and leather front configurations, your project will be ready to order after submittal.

For head protection and fire helmets with a logo, this submittal kicks off the proofing process. You'll receive an email saying the BYB request has been received. Our team aims to have proofs reviewed within a business day. During busy seasons or if the logo must be edited, it can be additional business days, usually no more than two.

Reminder, once you click Submit, the Project becomes locked in the BYB system and edits can no longer be made. The Project will now show in your Submission History.

BYB Request Confirmation

- Once submitted, you'll receive an email confirming receipt.

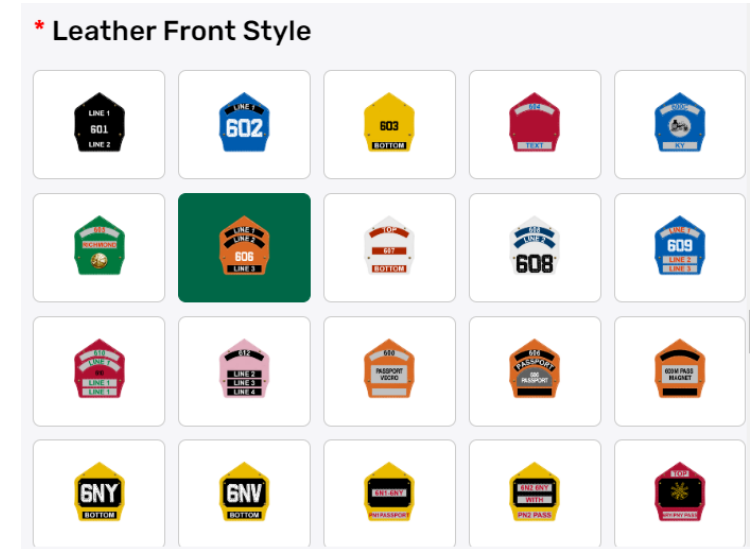

BYB Request Received

We have received your BYB request. We will review it and be in touch soon!.

<http://www.buildyourbullard.com/catalog/status/7125?k=7b186dfc7c4d36d64ca5abd3314645d0>

Fire Helmet Configurations

- Fire Helmets are built the same way as the head protection example above, albeit with different selection criteria such as visors, ear neck, protectors, and leather fronts. Also, fire helmets have different minimum order quantity requirements than head protection.
- Leather fronts are another unique product, where these can be configured stand alone or as a part of your fire helmet configuration.
- Leather fronts have a variety of options regarding shape, color, and rows of text. Pay attention on multiple text leather fronts that all text is filled in:

Leather Front Text

TEST 2

SAVED ON 05/27/2022

Open Project icon for opening this project to make further edits.

Copy Project icon, creates a new project utilizing this BYB configuration. Great for when you want to quickly modify a hat without changing the logo or stripe configuration. For example, this same configuration, but in a white helmet. Click Copy Project, select a new color and then resubmit.

A Note on Pricing

- The pricing you see is our suggested list price at our minimum order quantity of 20 hats or helmets. Volume pricing is still offered and will be added soon. Contact your Regional Sales Manager or Customer Service for this pricing.
- For distributors: We've worked to match your pricing to your account. If it is missing or incorrect, contact us and we'll work to get it corrected. Special pricing will not show in this system but will still be valid on orders.

Having Issues?

- See an error in the system? Please contact Customer Service or your Regional Sales Manager with your issue and we'll work to resolve them as quickly as we can.
- Also, have ideas for improvement, we want to hear those too!
- Contact us at info@bullard.com or 1-800-827-0423
- Thanks for choosing Bullard and be safe!
